Nunavut Water Board (see Attach)

RE: License No. 2AM-MEA1525 –Request by Licensee, Agnico-Eagle Mines Limited to Amend the Reclamation Security Amount Required Under the License Part C to Reflect “Overbonding”

On February 29, 2016 the Nunavut Water Board issued a letter to Kivalliq Inuit Association inviting the parties to address specific questions.

At this time KIA wishes to advise that we received a letter from Indigenous and Northern Affairs Canada on the matter of reclamation security currently held under Type A water license No. 2AM-MEA1525. At this point those discussions have not concluded.

Kivalliq Inuit Association required Review and approvals from our board if needed in the matter of security therefore KIA required an extension to respond to Nunavut Water Board on or before April 25th, 2016 with answers to the specific questions and potentially additional information for the board's consideration.

Gabriel Karlik
Executive Director
Kivalliq Inuit Association
