Richard Dwyer Nunavut Water Board Box 119, Gjoa Haven, NU X0B 1J0

Dear Richard Dwyer:

Re: 2AM-MEA1526 Notice of Application & Commencement of Technical Review

The Kivalliq Inuit Association acknowledges receipt of your message of January 25th concerning this Application for the Meadowbank Project. We respond to your request that the parties advise the NWB whether Agnico Eagle's responses to date are sufficient to resolve outstanding concerns.

KIA can advise that they are satisfied, <u>subject to</u> confirmation being received by the NWB from each of CIRNAC, ECCC and NRCan that their concerns have been addressed. KIA relies on the expertise of these parties, so if they can indicate that they are satisfied, then KIA has no concerns.

Further, in response to your request for input as to whether or not KIA feels a public hearing should be held in respect of this Application, KIA believes that the public needs the opportunity to be heard by the NWB.

Sincerely,

KIVALLIQ INUIT ASSOCIATION
