Good morning Richard, Everyone,

Apologies for the delay in responding.

Information submitted by AEM on August 3rd in response to DFO IRs 1-4 provides clarifications, and DFO is comfortable with the full technical review proceeding.

DFO does note that AEM's response to DFO-IR2 does indicate that proposed water use has the potential to exceed authorised volumes in the existing licence 2AM-WTP1826 in some cases (e.g. dust suppression). DFO is confident the technical review process will help clarify if existing authorised volumes are adequate, as stated by AEM in the Water Licence Main Application Document.

We look forward to receiving the technical review schedule.

Cheers

From: Richard Dwyer <richard.dwyer@nwb-oen.ca>

Good morning,

Will DFO be submitting comment whether or not the information submitted by AEM, satisfies their requests, and is DFO comfortable with the full technical review proceeding.

Regards,

Richard

Good afternoon,

the NWB is inviting interested persons to comment on the following amendment applications for 2AM-MEA1526, 2AM-WTP1826 and 2BB-MEA1828, please comment on:

- 1) completeness of the Application based on their initial technical assessment;
- 2) Information Requests (IRs) related to the Application that must be provided to enable the parties to complete their full technical review; and
- 3) type of TM/PHC to be held. All comments, recommendations and any requests for information (IRs) should be submitted to the NWB's Manager of Licensing at licensing@nwb-oen.ca no later than **July 4, 2019** (5:00 p.m. ET).

Regards,

Richard
