

| No | Issue Reference | Pre-Hearing Commitment | Party | Timeline for Submission |
|---------------------|------------------|---|-------|-------------------------|
| SCOPE | | | | |
| 1 | NWB | Provide Type B water licence compliance reports | INAC | intervention deadline |
| CONSTRUCTION | | | | |
| 2 | INAC-5 | Core material will not be placed until rockfill embankments have been closed shore to shore | AEM | 7-Mar-08 |
| 3 | BGC | Golder submitted copy of till investigation and lab testing report entitled "2007 Till Core Material Investigation and Laboratory Testing, Meadowbank Gold Project" dated January 25, 2008 | AEM | completed |
| 4 | INAC-8 - INAC-12 | Provide clarification to response to INAC issue 8-12 (Contractor to provide plan for instrumentation installation. Plan to be approved prior to completion by engineer.) | AEM | 7-Mar-08 |
| 5 | DFO-2 | Provide additional detail for monitoring plans for inside and outside silt curtains (including contingencies and thresholds) for TSS during dike construction and dewatering | AEM | 7-Mar-08 |
| 6 | DFO-2 | Provide the distance of the silt curtain relative to the dike construction area | AEM | 7-Mar-08 |
| 7 | INAC-3 | Provide coupled seepage/thermal analysis at central dike | AEM | licence issue |
| 8 | BGC | Provide memo clarifying where dredged lakebed sediment under dewatering dike footprint will be disposed. | AEM | 7-Mar-08 |
| 9 | INAC-13 | AEM will provide reference for monitoring non-contact water including parameters pH, turbidity, sulphate. Metals (Cu, Ni, Zn, Pb) | AEM | 7-Mar-08 |
| WATER | | | | |
| 10 | DFO-22 | AEM to provide reference for elevation change in lakes due to drawdown | AEM | 7-Mar-08 |
| 11 | EC-8 | Provide errata to closure and reclamation plan clarifying that dike breaching will occur where water quality meets CCME, background, or risk based assessment criteria as determined through an approvals process | AEM | 7-Mar-08 |

| | | | | |
|--------------|------------|---|----------|--------------------------------|
| 12 | NWB | Provide memo clarifying location of water source and water volumes for re-located explosives storage facility | AEM | 7-Mar-08 |
| 13 | EC | Provide table of end of pipe water quality standards for both the Portage diffuser from the Portage Attenuation Pond and the Wally diffuser from the Vault Attenuation Pond | AEM | 7-Mar-08 |
| 14 | EC | Provide comments to AEM on technical memo regarding dewatering and attenuation pond water quality discharge criteria | INAC, EC | prior to intervention deadline |
| WASTE | | | | |
| 15 | INAC | clarify if NPR ratio used affects volume of rock available for closure | | |
| 16 | GND OE - 5 | Elaborate response to GND OE issue 5 | AEM | 7-Mar-08 |
| 17 | GND OE-25 | Clarify intent of 10-15 year predictions in thermal model for freezing, and the monitoring commitment | AEM | 7-Mar-08 |
| 18 | NWB | Provide updated Document list and any missing documents including: Doc 538-Till Testing; Doc 548-Groundwater Quality Memo; and any others | AEM | 7-Mar-08 |
| 19 | GND OE-18 | Clarify hydrocarbon fractions that will be monitored for hydrocarbon contaminated soils | AEM | 7-Mar-08 |
| 20 | INAC | Provide clarification memo regarding NPAG material to be used at landfill | AEM | 7-Mar-08 |
| 21 | INAC-17 | Provide clarifications related to incinerator (design, operation and monitoring) committed to in February 20, 2008 meeting minutes | AEM | 7-Mar-08 |
| 22 | INAC-19 | Provide flow process outline of STP stages and detailed information from supplier on STP units. Emergency contingency plans. | AEM | 7-Mar-08 |
| 23 | na | Place AEM Technical Meeting presentation on Public Registry | NWB | asap |
| 24 | GND OE-12 | Clarify proposed use of CCME Guidance and provide table of proposed effluent discharge criteria (as per Technical Meeting presentation) | AEM | 7-Mar-08 |
| 25 | GND OE-12 | Provide information to AEM regarding new national COD standards/requirements | NWB | completed |
| 26 | GND OE-13 | AEM to inform communities of contingency measures that rely on community infrastructure and/or services | AEM | 7-Mar-08 |

| CLOSURE | | | | |
|---------|-----------|--|---------------|--|
| 27 | GND OE-22 | Provide correction to closure plan regarding timeline for monitoring re-vegetation success. | AEM | 7-Mar-08 |
| 28 | GND OE-23 | Revise response to GND OE-23 issue regarding wildlife passage through waste rock piles | AEM | 7-Mar-08 |
| 29 | NWB | Provide combined security estimates and holdings for all Type B licences and proposed Type A licence | AEM | at Final Hearing |
| 30 | NWB | Parties will meet and assess options for holding of security | INAC, KIA, GN | meeting as quickly as possible (March 3, 2008 proposed by KIA, subject to INAC and GN confirmation); submission at intervention deadline |
| GENERAL | | | | |
| 31 | NWB | Provide list of plans, reports and designs that need revising including a timeframe for providing them | AEM | At the Final Hearing |
| 32 | NWB | Submit final version of response tables providing clarification where requested | AEM | 7-Mar-08 |
| 36 | NWB | Provide clarification regarding status of bulk fuel storage facility construction (Type B exploration water licence 2BE-0507) | AEM | 7-Mar-08 |
| | DFO-25 | Follow freshwater end of pipe guidelines, provide detail design for effluent discharge for outfall diffuser and provide intake screen design | AEM | 7-Mar-08 |
| | DFO-24 | Provide assessment of easternmost channel enhancement | AEM | 7-Mar-08 |
| | DFO-6 | Submit baseline information (AEMP monitoring reports for 2006 and 2007) | AEM | 31-Mar-08 |
| | NWB | Provide a summary list of commitments made to all the parties | AEM | at the Final Hearing |

Additional Comment

AEM provide past performance exhibit for other jurisdictions

revision to response table

NWB to post to public registry

revision to response table

not required before final hearing.

INAC to confirm if reference to Doc 450 is sufficient. Provide in table revision.
