

PART I: CONDITIONS APPLYING TO GENERAL AND AQUATIC EFFECTS MONITORING

1. The Licensee shall comply with the Aquatic Effects Management Plan (AEMP) and Core Receiving Environmental Monitoring Program (CREMP) as approved by the Board (including updates) and in accordance with Schedule I.

The AEMP shall include:

- a. Comprehensive receiving environment monitoring to identify changes to the aquatic environment associated with mine activities;
- b. Linkage between monitoring results and adaptive management response;
- c. Monitoring of lake productivity;
- d. sampling and analysis plans;
- e. Monitoring under Fisheries Authorizations, NWB Licence Compliance Monitoring, MMER Environmental Effects Monitoring, and Groundwater Monitoring.
