Hi,

Sorry for the delay in sending comments on the licencing framework, however through further internal discussions we see the importance of cross-referencing the proposed draft water licence with terms and conditions from the Project Certificate.

We feel that commenting on the licence framework to be very beneficial to the department on many fronts and as such a number of different divisions are weighting in on this process to make it effective.

In saying this our submission will be delayed until Friday or Monday Dec 4, 2017.

Regards,

Ian Parsons,
A/Manager Water Resources
