SUBJECT: KIA comments on Meadowbank Tailings Storage Facility Water **Collection Pond, Notice of Construction** 

 $^{5}bL\sigma^{5}04^{5}$ 

**Baker Lake** 

The KIA has reviewed the notice of construction for the Tailings Storage Facility water collection pond at the Meadowbank Project. The KIA has the following comments.

 $\Delta_{\Gamma}$  -  $\Gamma_{d}$ 

Chesterfield Inlet

**لے دے ۶** ہ

Coral Harbour

Naujaat

1) Can the proponent provide an additional diagram that shows the location of the pumping facility that will pump the accumulated water from this pond to the open pits.

- 2) Can the proponent provide an additional diagram that shows the location of the water lines that will be used by the pumping facility to pump the accumulated water from this pond to the open pits.
- 3) Can the proponent provide information on how and where any water accumulated during the construction activities will be pumped.
- Does the proponent intend on routinely testing the water that is pumped during the construction 4) of this pond.
- 5) Does the proponent have a safety monitoring plan for routinely evaluating the integrity of the air strip during the blasting activities.

Thank you for the opportunity to participate in this review.
