Hi David

Thanks for the clarification. I think the questions were answer at the workshop. Hope to submit the amendment application next week.

Stephane

Hi Stephane,
I believe Richard's question below was with respect to the correspondence received from yourself, dated May 25, 2010 (see attached) which was looking for direction on the next steps for the amendment of Part E, Item 3. I know we discussed the issue during (not part of) the June 1, 2010 meeting in Edmonton, but needed to know if you were still looking for some direction and whether there were some questions still needing to be answered by the NWB or others that were cc'd on the letter.

Thanks,

Dave Hohnstein
DTS, Nunavut Water Board

Hi Richard

It was decide at this workshop, that AEM will submit a final version early September of the AEMP to the NWB after the integration of the comments from the regulators.

Thanks

Subject: 2AM-MEA0815 Part E3 Request for Amendment

Good morning Katheryn;

Is there any further follow-up required by the Nunavut Water Board or if the meeting held on June 1, 2010 in Edmonton had managed to address all issues.

Regards,
