Dear Mr. Dwyer,

Re: Meadowbank Water License 2AM-MEA0815 Part F, Item 16

The Mine Waste and Water Management Plan as referenced in Part F, Item 16 has been revised as two separate documents: a Water Management Plan and a Waste Management Plan.

Please find a copy of the *Meadowbank Gold Project Updated Water Management Plan* enclosed with this letter. The Waste Management Plan will be forthcoming pending the final review and will be submitted to the Nunavut Water Board as soon as it is available.

Should you require any further information, please contact me directly at 819-759-3700 ext.814 or via email at stephane.robert@agnico-eagle.com.

Regards,

Stéphane Robert
Environment Superintendent
