Dear Parties,

Following our review of the Operational Notice of the Development of a Site-Specific Water Quality Objective for Total Dissolved Solids (TDS) for Type A Water Licence 2AM-MEA1530, the two rounds of submissions from interveners, and subsequent responses from the Applicant, the Board has noted differing positions among the involved parties.

All submissions including the final response from Agnico Eagle to the second round of comments, submitted on January 29, 2025, can be found here:

<https://public.nwb-on.ca/registry/2%20MINING%20MILLING/2A/2AM%20-%20Mining/2AM-MEA1530%20Agnico/3%20TECH/G%20MODIFICATIONS/2024/>

To facilitate further discussion, the Board would like to organize a teleconference call with the interveners and the Applicant, potentially during the week of March 24, 2025. In preparation for this teleconference, the NWB requests that Agnico Eagle prepare and submit a presentation summarizing the comments from all parties and Agnico Eagle's responses.

The NWB also requests interveners to confirm their availability, and provide additional information/feedback (if any) for potential discussion during the teleconference.

Thank you,

Richard
