	L	ADDITIONAL INFORMATION, COMMENTS, ACTIONS PROPOSED OR TAKEN TO CONTAIN, RECOVER OR DISPOSE OF SPILLED PRODUCT AND CONTAMINATED MATERIALS				
M		<p>After a planned electrical shutdown of the Tailings Storage Facility (TSF) "pig launcher" station, during restart of the system by the Mill control room, the wrong valve was opened remotely, discharging tailings at the top of Saddle Dam 4, by the station. Upon discovery of the spillage, the valve was immediately closed. The tailings were contained within the existing berm surrounding the area and another berm was added at the low point as a precautionary measure. The area will be cleaned-off and soil/slurry/snow removed will be put back into the TSF. There were no off site impacts or discharge to any receiving watercourses. Distance to the closest lake is estimated at 900 meters. Spill location: 65°01'27.3" 096°03'43.1</p> <p>Contact Information: Robin Allard 819 759 3555 ext. 4606838</p>
