

5 May 2014

NIRB File No: 11MN034

TO DISTRIBUTION:

Agnico Eagle Mines Limited (AEM) is pleased to enclose its Final Environmental Impact Statement (FEIS) for the Meliadine Project. This FEIS is the culmination of years' of baseline data collection, extensive consultation throughout the Kivalliq Region and Nunavut, and AEM's design of the Meliadine Gold Mine. To facilitate review, the FEIS includes multiple concordance tables to address requirements and commitments outlined in the guidelines, the Information Requests, the technical comments, and the Pre-Hearing Conference Decision report and cover letter.

The number of paper and electronic copies enclosed was determined by the letter send by NIRB on March 20, 2014. If additional electronic copies are required, AEM would be pleased to send them to you.

AEM looks forward to a productive relationship with all participating organizations and individuals in the upcoming review of the Meliadine Project FEIS. Should you have any questions or concerns with the FEIS, please do not hesitate in getting in touch with me at (819)763-0229 or stephane.robert@agnicoeagle.com.

Yours sincerely,

Stéphane Robert,
Manager Regulatory Affairs
