Re: Notice of Community Information Session in Rankin Inlet Regarding NIRB's Update on the "Meliadine Gold Mine" Project (NIRB File No. 11MN034), September 2, 2015

Dear Mr. Tom Ng:

As part of its monitoring function required by the Nunavut Land Claims Agreement, the Nunavut Impact Review Board (NIRB or Board) is responsible to conduct an annual site visit of Agnico Eagle Mines Limited's "Meliadine Gold Mine" project located northwest of Rankin Inlet. In transit to the Meliadine site, NIRB staff will be in Rankin Inlet on September 2, 2015 and are planning to host a public community information session to provide residents with updated information about the ongoing monitoring of the Meliadine Project. This letter is intended to provide details to the Hamlet on the purpose of the community information session and invite the Hamlet to attend the event.

The evening sessions will be structured as follows:

- Doors open at 6:30 p.m.
- NIRB staff presentation – to inform community members about the Board's monitoring function, provide an update on the monitoring of the Meliadine Project, and explain how members of the public may participate in the NIRB's Monitoring process.
- Open question period – community members discuss comments or questions about the project with NIRB staff.

If you have any questions or require additional information, please contact Kristina Benoit, Technical Advisor, at kbenoit@nirb.ca or by phone at (867) 983-4607.

Sincerely,

Tara Arko
Director, Technical Services
Nunavut Impact Review Board
