

The following table represents a list of commitments made for Agnico Eagle's Meliadine Extension Project Proposal. Rows that have been highlighted in grey indicate a commitment has been fulfilled and/or considered resolved.

Meliadine Extension – List of Commitments

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission
1.	Information Requests	Agnico Eagle	CIRNAC-IR-14	Agnico Eagle commits to update the 2019 Analysis of the Risk of Temporary Mine Closure (Term and Condition No. 90 of Project Certificate No.006) in the annual report to reflect updates based on Meliadine Extension.	Following issuance of Project Certificate Amendment	Annual Report
2.	Information Requests	Agnico Eagle	HR-IR-1	Agnico Eagle commits to meet with Health Canada to confirm understanding of the Meliadine Extension and associated topics received from Health Canada.	Complete Meeting held October 12, 2022	Meeting notes and PowerPoint slides
3.	Information Requests	Agnico Eagle	ECCC-IR-8	Agnico Eagle commits to address net-zero plan and carbon sinks during the NIRB technical review stage.	Complete	Technical Comment Submission
4.	Information Requests / Technical Comments	Agnico Eagle	NRCan-IR-19 / NRCan-TRC-08	Agnico Eagle commits to evaluate models using suitable data that have been acquired from new thermistor cables installed in the vicinity of the Discovery deposit through the Type A Water Licence Amendment.	December / January	Water Licence Amendment Application
5.	Technical Comments	Agnico Eagle	KivIA-IR-2 SDFN/NDFN-TC-01 SDFN/NDFN-TC-02 SDFN/NDFN-TC-03 SDFN/NDFN-TC-04	Agnico Eagle commits to address many caribou topics raised by KivIA, GN, and SDFN/NDFN during the Meliadine Extension NIRB process at the Meliadine TAG including: <ul style="list-style-type: none"> - Definition of deflection - Caribou movement and monitoring (around windfarm, airstrip, and roads), including noise levels - Zone of Influence around windfarm - Mitigation markings of Discovery waterline 	Ongoing Discuss at next organized Meliadine TAG meeting currently scheduled for December 15-16, 2022	Meeting minutes to TAG members
6.	Technical Comments	Agnico Eagle	KivIA-TRC-03 GN-TRC-09 GN-TRC-10	The Windfarm Management Plan will be reviewed with the TAG and updated prior to the construction of the windfarm, if required.	Prior to construction of windfarm	Windfarm Management Plan

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission
7.	Technical Comments	Agnico Eagle	ECCC-TRC-11	Agnico Eagle agrees to conduct one more year of bird surveys prior to construction of the full footprint of the windfarm. This includes spring and fall migration and breeding bird season.	Prior to construction of the windfarm	Annual Report
8.	Technical Comments	Agnico Eagle	TC-TRC-01	Should the airstrip move forward in the future, Agnico Eagle will complete consultation and file the summary report with the Minister of Transport as required by the Canadian Aviation Regulations.	Prior to commencing construction of the airstrip	Summary Report as required by the Canadian Aviation Regulations
9.	Technical Comments	Agnico Eagle	TC-TRC-02	Agnico Eagle will complete and submit the application for exemption under <i>Canadian Navigable Waters Act 24</i> with all the required information to Transport Canada.	90 days following issuance of the Project Certificate	Transport Canada online application
10.	Technical Comments / Technical Meeting	Agnico Eagle	TC-TRC-03	Agnico Eagle will review the Minor Works Order and if applicable, submit the application to Transport Canada.	January 31, 2023	Transport Canada online application, if applicable
11.	Technical Comments	Agnico Eagle	CIRNAC-TRC-01	The Spill Contingency Plan, Water Management Plan, and Adaptive Management Plan will be updated to include nomenclature around the Discovery waterline, specific to the mitigation measures that were included within the Spill Contingency Plan updated during the Waterline Application.	90 days following issuance of the Project Certificate	Spill Contingency Plan, Water Management Plan, and Adaptive Management Plan
12.	Technical Comments	Agnico Eagle	DFO-TRC-08	Agnico Eagle will evaluate ponds in the X Watershed next year during field investigations, and will provide a list of the baseline monitoring to be collected before proceeding with new work on the site and the associated schedule.	Summer of 2023	Annual Report
13.	Technical Comments	NIRB	GN-TRC-12	Agnico Eagle agrees with the proposed modification to Term and Condition No. 111	Issuance of the Project Certificate	n/a

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission
14.	Technical Comments	Agnico Eagle	NIRB-TC-001	<p>Agnico Eagle commits to adding the following thresholds and mitigation measures to Table C.2 of the Dust Management Plan 90 days prior to construction of the airstrip:</p> <ul style="list-style-type: none"> • Frequency: regular weekly or more frequent inspection during the late spring and summer periods • Indicator: measured dustfall and deterioration of visibility along the airstrip • Threshold: deterioration of visibility, safety concern, dustfall exceeding 1.58 mg/cm²/30-day at station DF-9 (located 500 m south the airstrip) • Mitigation Measures: use water and/or calcium chloride to control the dust, grade the airstrip surface and add new granular material to the airstrip surface 	90 days prior to construction of the airstrip	Dust Management Plan
15.	Technical Comments	Agnico Eagle	KivIA-TC-08 KivIA-TC-09 CIRNAC-TRC-02 ECCC-TRC-07 ECCC-TRC-08 NRCan-TRC-02 NRCan-TRC-03	Agnico Eagle commits to detailed discussion and evaluation of in-pit deposition through the Type A Water Licence Amendment.	Replaced by Commitments 40, 41, 42	n/a
16.	Technical Comments	Agnico Eagle	KivIA-TC-04 KivIA-TC-05	Details of the water balance and water quality predictions on surface contact water discharge quality to Meliadine Lake will be provided as part of the Type A Water Licence Amendment process.	December / January	Water Licence Amendment Application
17.	Technical Comments	Agnico Eagle	DFO-TRC-02 DFO-TRC-03 DFO-TRC-04 DFO-TRC-05	Agnico Eagle commits to continue working with the DFO through the parallel regulatory process to obtain a <i>Fisheries Act</i> Authorization and provide details in Final Fish Habitat Offsetting Plan	Ongoing	Authorization Application
18.	Technical Meeting	Agnico Eagle	DFO-TRC	Agnico Eagle commits to meeting DFO and KivIA in Yellowknife to resolve outstanding matters.	January 2023	Memorandum

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission
19.	Technical Meeting	Agnico Eagle	CIRNAC-TRC-03 NRCan-TRC-09	Agnico Eagle commits to provide a thermal analysis for TIRI2.	Ongoing	Water Licence Amendment Application
20.	Technical Meeting	Agnico Eagle	CIRNAC-TRC-02 ECCC-TRC-07 ECCC-TRC-08 NRCan-TRC-09	Agnico Eagle commits to discuss the key components to be evaluated of in-pit deposition of waste rock and tailings.	Complete Meeting held in Rankin Inlet on November 25, 2022	Meeting
21.	Technical Meeting	Agnico Eagle	ECCC-TRC-05	Agnico Eagle's and ECCC's technical experts will meet to discuss the net-zero plan and carbon sinks per the requests raised by ECCC in more detail. A summary of the discussion will be provided to the NIRB following the conclusion of the meeting.	January 31, 2023	Meeting notes
22.	Technical Meeting	Agnico Eagle	ECCC-TRC-11	Agnico Eagle will conduct post-construction mortality surveys for the full footprint of the windfarm during spring, fall, and breeding bird season for 1 year and then evaluate if further years are required.	Post-construction of windfarm	Annual Report
23.	Technical Meeting	Agnico Eagle	HC-AQ-4	Agnico Eagle will provide compiled air quality annual report results compared to the 2014 FEIS and include statistical analysis.	January 31, 2023	Memorandum
24.	Technical Meeting	Agnico Eagle	Technical Meeting	Agnico Eagle commits to bring members of the Terrestrial Advisory Group to an existing / representative windfarm location.	End of January 2023	Site visit summary
25.	Technical Meeting	Agnico Eagle	SDFN/NDFN-TC-02	Provide a schematic of the Discovery waterline and All-weather access road waterline connection.	January 31, 2023	Map
26.	Technical Meeting	Agnico Eagle	GN-TRC-01	Agnico Eagle will provide with respect to the chronic air quality assessment in the Human Health Risk Assessment: 1) additional rationale on how and why people use the discrete receptor locations and why the selected toxicity reference values correspond to these uses; 2) details regarding the underlying assumptions which the toxicity reference value were derived; and 3) sensitivity analysis with risk estimates.	December 16, 2022	Technical Memorandum

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission
27.	Technical Meeting	Agnico Eagle	GN-TRC-02	Agnico Eagle will provide additional details on the assumptions used in the risk assessment, specifically: 1) when users are at the discrete receptor locations and how they use those locations; 2) duration of visits; and 3) who are the users (i.e., whether they are adults or families).	December 16, 2022	Technical Memorandum
28.	Technical Meeting	Agnico Eagle	GN-TRC-04 HC-WQ-01	Agnico Eagle will provide more support for assumptions that Saline Pond B7 would not be used as a primary source of drinking water in post-closure and will provide the details of calculations used to determine risks associated with emergency use of Saline Pond B7 as a drinking water source.	December 16, 2022	Technical Memorandum
29.	Technical Meeting	Agnico Eagle	HC-CF-02	Agnico Eagle will provide additional information and/or reference material to provide clarification of soil quality data collected since the 2014 FEIS.	December 16, 2022	Memorandum and past annual TEMMP reports
30.	Technical Meeting	Agnico Eagle	HC-HHRA-03	Agnico Eagle will provide a map showing discrete receptor locations used in the HHERA and updated monitoring stations, as well as the Meliadine Extension footprint.	December 16, 2022	Map
31.	Technical Meeting	Agnico Eagle	HC-HHRA-04	Agnico Eagle will provide additional information regarding the dose-averaging approach for the chronic air quality assessment, with respect to receptor selection, exposure dose calculation, and selection of toxicity reference values, with this information being substance-specific and scenario-specific.	December 16, 2022	Technical Memorandum
32.	Technical Meeting	Agnico Eagle	HC-AQ-02	Agnico Eagle will provide a list of substances specific to the proposed airstrip's construction and operation, and determine whether any of these substances are distinct from chemicals of potential concern (COPCs) already assessed in the existing HHRA. If new substances are identified, a qualitative update to the HHRA will be completed.	December 16, 2022	Technical Memorandum
33.	Technical Meeting	Agnico Eagle	SDFN	Agnico Eagle will provide a summary of the wind analysis for the windfarm from Agnico Eagle's 3 rd Party Consultant.	January 31, 2023	Memorandum

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission
34.	Technical Meeting	Agnico Eagle	GN	Agnico Eagle commits to providing a graph to showing pre-COVID employment vs. actuals to evaluate differences.	December 16, 2022	Memorandum
35.	Technical Meeting	Agnico Eagle	GN-TRC-05	Agnico Eagle commits to meet with the GN to discuss which polygon to use for the potential analysis of the post-calving range.	January 31, 2023	Email of conclusions
36.	Technical Meeting	Agnico Eagle	GN-TRC-08	Agnico Eagle will provide a table showing caribou observations and all-weather access road shutdowns.	January 31, 2023	Table
37.	Technical Meeting	Agnico Eagle	GN	Agnico Eagle commits to meet with the GN in Iqaluit to resolve outstanding caribou technical comments.	January 2023	Memorandum
38.	Technical Meeting	Agnico Eagle	KivIA	Agnico Eagle commits to meet with the KivIA to resolve outstanding caribou technical comments.	January 31, 2023	Memorandum
39.	Technical Meeting	Agnico Eagle	SDFN/NDFN-TC-1	Agnico Eagle commits to providing the 2014 FEIS viewshed which excludes the wind turbines.	January 31, 2023	Map
40.	Technical Meeting	Agnico Eagle	NRCan, ECCC, CIRNAC	Agnico Eagle commits to providing framework for Meliadine in-pit deposition studies that follows the methodology from the Meadowbank submission to NIRB.	Complete Agnico Eagle emailed to Parties on November 26, 2022	Document
41.	Technical Meeting	NRCan, ECCC, CIRNAC	Agnico Eagle	NRCan, ECCC, and CIRNAC will provide a response to Agnico Eagle on the in-pit deposition methodology.	December 9, 2022	Document
42.	Technical Meeting	Agnico Eagle	NRCan, ECCC, CIRNAC	Agnico Eagle will provide results from the in-pit methodology for tailings in-pit deposition.	December 15, 2022	Document
43.	Technical Meeting	Agnico Eagle	SDFN/NDFN	Agnico Eagle will provide pre-construction imagery of the Meliadine Extension locations where the wind turbines, airstrip, waste rock storage pits and borrow pits would be located and then later, disturbed.	December 16, 2022	Memorandum and map

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission
44.	Technical Comment / Technical Meeting	Agnico Eagle	DFO-TRC-01	Agnico Eagle will provide maps of which waterbodies are planned to being dewatered now as opposed to the proposal from 2014 and provide an explanation as to why they need to be dewatered now and not in 2014.	January 31, 2023	Memorandum and maps
45.	Technical Comment / Technical Meeting	Agnico Eagle	DFO-TRC-01	Agnico Eagle will provide an approximation of the fish habitat proposed to be destroyed in 2014 and what is proposed today.	January 31, 2023	Memorandum
46.	Technical Comment / Technical Meeting	Agnico Eagle	DFO-TRC-04	Agnico Eagle will provide an explanation as to how discovering char in 2020-2021 in lake A6 and the decision to completely dewater the lake as opposed to partially dewater as was planned in 2014 follows an adaptive management approach which gives priority to avoidance of impacts.	January 31, 2023	Memorandum
47.	Technical Meeting	Agnico Eagle	NIRB	Agnico Eagle will provide a list of items that would be provided to the NIRB if the airstrip was going to be added in the NIRB process.	January 31, 2023	Memorandum
