Dear Richard Dwyer,

The Fish and Fish Habitat Protection Program in Yellowknife is asking for an extension for the Technical comments submission to August 31st.

Our experts have been working on key documents with Agnico and all information have not been provided yet. On top of that, the wildfire situation in NWT is likely going to delay the finalization of our comments as our staff have to deal with the ongoing threat and potential for evacuation.

I hope the board will consider this request in light of the current situation.

Thank you

José Audet-Lecouffe B.Sc. M.Env.

The Nunavut Water board is aware that a number of web browsers are no longer supporting File Transfer Protocol (ftp). If you are having difficulty accessing our FTP site you may need to download an FTP application. We have been recommending the FileZilla Client below to access the files, which is a free and open source application. A link can be found below:
