**Subject: Technical Meeting – Draft Agenda for Type “A” Water Licence No: 2AM-MEL1631; Meliadine Project Amendment Application (Meliadine Extension) by Agnico Eagle Mines Limited**

---

Dear Mr. Quesnel:

Further to the Nunavut Water Board’s (NWB or Board) correspondence<sup>1</sup> of June 16, 2023 with respect to the technical review of the application for an amendment to Water Licence No: 2AM-MEL1631 (the Application) submitted by Agnico Eagle Mines Limited (Agnico Eagle or the Applicant) for the Meliadine Project, the Board received comments<sup>2</sup> from the following interested parties:

- Environment and Climate Change Canada (ECCC)
- Kivalliq Inuit Association (KivIA)
- Crown-Indigenous Relations and Northern Affairs (CIRNA)
- Department of Fisheries and Oceans (DFO)

Copies of the comments received from the intervening parties, along with the submissions from the Applicant and all documents associated with the Application, have been placed in the NWB’s Public Registry and made available through the Board’s FTP site using the following link:

<ftp://ftp.nwb-oen.ca/registry/2%20MINING%20MILLING/2A/2AM%20-%20Mining/2AM-MEL1631%20Agnico/2%20ADMIN/4%20HEARINGS/1%20PREHEARING>

---

<sup>1</sup> R. Dwyer (NWB) to J. Quesnel (Agnico Eagle); RE: Water Licence No: 2AM-MEL1631; Meliadine Project; Amendment Application (Meliadine Extension) by Agnico Eagle Mines Limited; June 16, 2023.

<sup>2</sup> Environment and Climate Change Canada (ECCC), August 21, 2023; Kivalliq Inuit Association (KIA), August 31, 2023; Crown-Indigenous Relations and Northern Affairs (CIRNA), August 31, 2023; Department of Fisheries and Oceans (DFO), August 31, 2023.

On September 18, 2023, the Applicant provided responses to the interveners' comments. The Applicant is advised to review all submissions, including the intervening parties' comments on the technical review of the Application in preparation for the upcoming Technical Meeting (TM).

As stated in the NWB correspondence dated June 16, 2023, the Board has directed its staff to hold an in person **Technical Meeting (TM) and Community Session on October 12-13, 2023** in Rankin Inlet and to postpone the Pre-Hearing Conference (PHC) until after the NIRB's Public Hearing Decision is made. The Pre-Hearing Conference will be organized via teleconference on a later date.

In preparation for the upcoming TM, the Board has attached a copy of a draft agenda and requests that interested persons provide relevant comments to the NWB's Licensing Department at [licensing@nwb-oen.ca](mailto:licensing@nwb-oen.ca) by **3:00 p.m. MST, Tuesday, October 3, 2023**. In addition to comments on the Agenda, interested parties are asked to also provide the following information along with their submissions:

- Confirm the attendance of their organization, group or individual;
- Provide the names of the individuals who will be participating in the TM; and
- Identify whether they wish to make a formal presentation during the TM.

Following receipt of this information, the NWB will distribute a final version of the Agenda in advance of the TM, as well as the names of the participating organizations and/or persons, who have confirmed their attendance.

The Applicant and intervening parties intending to make presentations during the TM must provide to the NWB, for public distribution and posting on the Board's registry, copies of their presentation materials (including the Applicant's and Intervenors' presentations). These materials should be provided in English and Inuktitut, along with an executive summary in French (preferably in PDF/PowerPoint format, less than 3 MB/file size), **no later than 3:00 p.m. MST, October 3, 2023**. It should be noted that intervening parties are expected to indicate during their presentations whether the issues that they have identified were, or will be, addressed by Agnico Eagle to their satisfaction prior to the Public Hearing (PH).

As part of this Agenda, the NWB is proposing to hold a community session on the evening of **October 12, 2023** to allow representatives from Rankin Inlet to express their views regarding the Project, the Application, and/or ask any questions to the Applicant and the intervening parties. The Applicant and intervening parties should be prepared to provide summarized versions of their Technical Meeting presentations for the community session. To ensure that community members have access to the presentations in Inuktitut, English and French, paper copies of all three versions of presentations should be made available for distribution during the community session.

In addition, the NWB requests that all parties have on hand the copies of the application and correspondence/submissions (either hard copy or electronic) for reference as required, as the NWB will likely only have a few hard copies available for viewing and for the public.

As the date for the Technical Meeting approaches, if any parties/persons have technical questions or require clarification with respect to the above information, please contact Mohammad Ali Shaikh, Technical Advisor, by email at [ali.shaikh@nwb-oen.ca](mailto:ali.shaikh@nwb-oen.ca). For procedural and administrative inquiries, please contact Richard Dwyer, Manager of Licensing, by e-mail at [licensing@nwb-oen.ca](mailto:licensing@nwb-oen.ca).

Sincerely,

---

Richard Dwyer,  
Manager of Licensing
