Hi,

I'm having trouble opening any/all files.

I tried to download file zilla but to no avail.

It is critical for KHTO to review and be a part of this process in a meaningful way.

I am traveling right now and cannot access the administrators to install the file, in order to review this information.

Thank you for your patience, please feel free to assist me in any way as time is of the essence.

Thank you

Donna Adams

Manager, KHTO

The Nunavut Water board is aware that a number of web browsers are no longer supporting File Transfer Protocol (ftp). If you are having difficulty accessing our FTP site you may need to download an FTP application. We have been recommending the FileZilla Client below to access the files, which is a free and open source application. A link can be found below:
