Nunavut Planning Commission
and
Nunavut Water Board

Re: Letter of Support for Agnico Eagle Mines Meliadine Water License Amendment – Continuation of Mining

To whom it may concern,

The Municipality of Rankin Inlet fully supports Agnico Eagle's Water License Amendment for the continuation of mining to 2036, and we have no concerns with the proposed amendment. Our support is recorded in our meeting minutes as resolution # 42-26.

Agnico Eagle presented the scope of the application to us on March 23, 2026, for the continuation of mining at Meliadine outlining the following key points:

- Operations continuing for an additional 5 years to 2036, requiring an amendment to the water license.
- Mining activities would continue in areas that are already assessed and approved.
- Water and waste can be managed within the existing infrastructure.

Continuation of mining at Meliadine would benefit the people in the Kivalliq region. We recommend the application proceed directly to the Nunavut Water Board.

Sincerely,

Danny Kowmuk
Acting Mayor

Re: Letter of Support for Agnico Eagle Mines Meliadine Water Licence Amendment – Continuation of Mining

To whom it may concern,

I am submitting this letter to provide my support for Agnico Eagle's Water Licence Amendment for the continuation of mining to 2036.

On March 18, Agnico Eagle presented the Meliadine continuation of mining to our community of Arviat and I support the file to proceed to a Water Licence Amendment.

Sincerely,

Peter J. Aulatjut
Kivalliq Elder Advisory Committee

Conclusion

ᖁᐅᓴᕆᐅᔪᖅ

Conclusions

- Support from Elders, Hamlets, and community members for continuing mining to 2036
- Optimize existing infrastructure and advancing the development of already approved deposits to improve operational efficiency and resource recovery
- Technical Comments addressed
- Ongoing compliance remains a clear commitment
- Existing licence mechanisms provide continued oversight
