Subject: Open letter to Kivalliq Inuit Association-Upcoming NWB community session scheduled for January 19, 2021-Rankin Inlet

Good morning,

I'm writing to ask that the session scheduled for tomorrow be postponed until KIA has held community session regarding the Meladine gold project water license No: 2AM-MEL1631.

Within the last year, residents of Rankin Inlet have been asked to attend a number of sessions with various involved organizations, regulatory bodies and groups. Throughout all this more questions and concerns are being raised by community members including where does this stand as far as the IIBA is concerned? Where are you all at now concerning the application process? What are next steps? What about the input that was provided by our elders?

KIA passed a number of motions regarding his matter and we would like to hear from them. Q&A session should be held with KIA. We would like clarification on where KIA, Hamlet of Rankin Inlet, KWB and other concerned groups stand on this.

With respect,
Barbara Tartak
Rankin Inlet community member
