Security Management Agreement

- In order to ensure that there is adequate security posted to address any issues that arise relating to the Meliadine operations, amendments must be made to the Security Management Agreement.
- The KivIA is working with CIRNAC and the Proponent to finalize the necessary amendments to the Security Management Agreement and hopes to have the agreement finalized prior to the Public Hearing.

Lake B7 Remediation
C/D B7 A/B C/D A/B

- The KivIA requested that the Proponent include further detail on Lake B7 remediation in the Interim Closure and Reclamation Plan.
- The purpose of this request stemmed from the concern that the storage of saline groundwater in Lake B7, instead of tailings, raises the possibility of remediating Lake B7 to sustain aquatic life and be connected to the local watershed during closure and post-closure.
- In response, the Proponent committed to monitoring Lake B7 during operations to assess the potential requirement of remediation of Lake B7 at closure.

Draft Water Licence Framework Comments

The KivlA has reviewed the draft Type A Water Licence and has the following comments:

- The KivlA is seeking to have the commitment list incorporated as an appendix to the licence;

Unresolved

- At Part B, Section 10, the KivIA is seeking to ensure that should the NWB otherwise direct that Plans may be undertaken without further NWB approval after 60 days, comments of the KivIA and other Participants shall be addressed prior to issuing any such approval. The KivIA rejects Agnico Eagle's requested wording.

Unresolved

- At Part B, Section 14, the KivIA is seeking language within the licence reflecting the commitments of the Proponent to update certain Plans.
