Outstanding Issues

- CIRNAC, the Kivalliq Inuit Association and Agnico Eagle worked together to update the Global Security Amount for the existing license and the current amendment application.
- Updated Global Security Amount estimate has been presented to NWB for consideration.

5

Status of the Technical Review Comments

CIRNAC submitted technical review comments regarding:

- ✓ Revisions to the Adaptive Management Plan
- ✓ Minimizing Discharge to Melliadine Lake
- ✓ Storage of Saline Water in Lake B7
- ✓ Water Quality Predictions
- ✓ Groundwater flow and Water use

- Agnico Eagle has satisfactorily addressed all our technical comments.
- CIRNAC identifies all the technical review comments submitted on April 26, 2024, as resolved.

8

Outstanding Issues

Security Management Agreement

- Agnico Eagle has proposed a draft of the Amended Security Management Agreement between Government of Canada, the Kivalliq Inuit Association, and Agnico Eagle.
- CIRNAC is updating the proposed agreement's language to align the agreement with the existing Acts and Regulations.

6

Outstanding Issues

Adaptive Management Plan

- CIRNAC recommends that the Adaptive Management Plan be included in the license.
- CIRNAC and Agnico Eagle worked together to include language, ensuring that the Water License supersedes any conflicting requirements outlined in the Adaptive Management Plan.
