**Subject: Water Management Working Group Teleconference #1; Type "A" Water Licence No: 2AM-MEL1631, Agnico Eagle Mines Limited, Meliadine Project**

Dear Mr. Kharatyan,

Following your May 14<sup>th</sup>, 2020 letter, Agnico Eagle Mines Limited (Agnico Eagle) confirms its availability to participate to the Water Management Working Group's (WMWG) first teleconference, June 3<sup>rd</sup>, 2020.

It should be noted that discharge from Containment Pond 1 (CP1) to Meliadine Lake has not yet started and is likely not to begin for another week, therefore it is unlikely there will be results to review at this first meeting.

In the following days, Agnico Eagle will provide the members of the WMWG proposed Terms of References for review. The June 3<sup>rd</sup>, 2020 WMWG kick-off meeting could serve to discuss and agree upon these proposed Terms of References.

On behalf of Agnico Eagle, the participants of the WMWG will include:

Jessica Huza (Environment Superintendent)  
Matthew Gillman (Hydrology Coordinator)  
Sara Savoie (Compliance Counselor)  
Jamie Quesnel (Regional Manager, Permitting & Regulatory Affairs)  
Michel Groleau (Permitting & Regulatory Affairs Superintendent)  
John Faithful (Aquatics Specialist – Golder)  
Gary Lawrence (Aquatics Specialist – Golder)

Agnico Eagle will advise the Nunavut Water Board when discharge has been initiated.

Kind regards,

A handwritten signature in blue ink that reads "J Huza".

Jessica Huza, M.Sc, Eng  
Environment Superintendent, Meliadine
