SUBJECT: Notice of Activity – Draining/Dewatering of Ponds

 $\Delta^c \Delta^c$

Arviat

$${}^{\circ}bL\sigma^{\circ})\Delta^{\circ}b$$

Baker Lake

The KIA has reviewed Agnico Eagle's Notice of Activity – Draining/Dewatering of Ponds and has the following comments.

 $\Delta^L \supseteq \mathcal{L}^{\text{ref}}$

Chesterfield
Inlet

The Kivalliq Inuit Association has no current concerns related to the impacts of:

1. The proposed water volumes from the waterbodies to be drained/dewatered.
2. Results of the non-potentially ARD generating (non-PAG) samples collected from Tiriganiaq 01, 01 expansion, 02 and SP4 waste rock and pit wall rock samples.

$$L_{\infty} \subset L^{\infty}$$

Coral
Harbour

As the dewatering activities will result in fish habitat destruction, the KIA wishes to continue involvement in the habitat offsetting planning.
