

By Email

On June 27, 2016 the NWB distributed AEM's submission to interested parties for information and comments. On July 28, 2016, the NWB received comments from Indigenous and Northern Affairs Canada (INAC) available at the following link:

[ftp://ftp.nwb-oen.ca/registry/2%20MINING%20MILLING/2A/2AM%20-%20Mining/2AM-MEL1631%20Agnico/3%20TECH/1%20GENERAL%20\(B\)/B13%20MGMT%20PLANS/](ftp://ftp.nwb-oen.ca/registry/2%20MINING%20MILLING/2A/2AM%20-%20Mining/2AM-MEL1631%20Agnico/3%20TECH/1%20GENERAL%20(B)/B13%20MGMT%20PLANS/)

The NWB has noted that although updates to these Plans generally include comments/questions raised during the review of the Type "A" water licence application, however, additional information or explanations are still required included/indicated within INAC's comment submission.

The Board acknowledges however that inclusion of requested information and explanations will not constitute at this time a substantial functional change to the previously approved plans and current updates, and does not require an immediate submission of updated Plans. By this correspondence the Board is requesting that the Licensee review INAC's comments and include the requested information along with other potential updates within the next annual update of these documents.

Should you have questions regarding this matter, please contact me, Karén Kharatyan, Acting Manager of Licensing / Sr. Technical Advisor, at (867) 360-6338 or by e-mail to licensing@nwb-oen.ca.

Sincerely,

Karén Kharatyan
Acting Manager of Licensing / Sr. Technical Advisor
