Hi NWB,

For the most part CIRNAC is satisfied with the information provided by AEM. However CIRNAC is finding it difficult to distinguish what activities are covered under what licences. CIRNAC also believes that AEM may be having difficulty as well. CIRNAC is not questioning whether the activities are approved, however CIRNAC does believe that the licences are separate and shouldn't be combined. If this is the approach then all activities should fall under the one licence.

CIRNAC inspectors find it very difficult to inspect a licence when certain activities seemed to be combined.

CIRNAC, in future would like to see very clear and distinguishable licences.

Also CIRNAC reminds the licensee to monitor these structures regularly to ensure that there is no impact to the environment and that the facilities/structures are working as intended.

Regards,

Ian Parsons

Manager, Water Resources Division

Nunavut Regional Office, CIRNAC
