1. Introduction

1.1 Description and Overview

The Mary River Project is located on north Baffinland, in the Nunavut Territory, in the Canadian arctic. One aspect of the project that is required is obtaining a Nunavut Water Board (NWB) Type A water license to operate. In order to do this, a water License application needs to be completed and submitted to the Board so that they can exercise their powers under the *Nunavut Waters Nunavut Surface Rights Tribunal Act* (NWNSRTA or Act) and the *Northwest Territories Water Regulations* (NTWR or Regulations). As part of the application process there are certain engineering deliverables that need to be submitted. This document provides a list of all the Maps that will be provided with the Type A Water License.

1.2 Scope
