Dear Robert,

We have completed the SIG as requested, it is included as Appendix B of the updated application. Please note that as previously mentioned, Baffinland is requesting a renewal of its existing Type A Water Licence on current terms and conditions: no changes to the Mary River Project are included in this renewal application and it is not an amendment application. As per note a) on Tab 2.0 of the SIG, *The SIG applies to applicants seeking a new water licence or an amendment to an existing water licence. The SIG does not apply to applicants seeking a strict water licence renewal.*

However, we trust that this completed SIG will help reviewers with this renewal application. The SIG is provided as a pdf, but if you would like to also receive the Excel version, I can submit this as well.

We were required to update the application package to align with the SIG, therefore you will be able to download the updated package at the link attached to this email. Password is Maryriver. This is the complete application package that can be reviewed for completeness. As such, the previous package should be deleted from the Registry. Please let me know if you have any issues downloading the documents, or any questions.

Kind regards,

Elisabeth
