Re: 2AM-MRY1325 Type A Water Licence Renewal Application Information Request Responses

Dear Mr. Kharatyan,

As a follow-up to our letter dated September 10, 2024, Baffinland is pleased to provide the following information in response to comments from the Qikiqtani Inuit Association (QIA) for Baffinland's Type A Water Licence Renewal Application (the Renewal Application). The enclosed information includes the following:

- Summary of water quality monitoring results since 2013
- Summary of management plan updates: An update to Table 7.1 of the Water Licence Renewal Application is provided.
- Update to Inuit engagement summary: An update to Attachment 4 of the previous responses is provided, in which Baffinland included a summary of the management response which addresses the comments raised.
- Cumulative effects summary: A memo summarizing cumulative effects assessment for the Mary River Project.

We hope that this satisfies QIA's comments and should not prevent the technical review from beginning as soon as possible.

We look forward to the next steps in the process.

Sincerely,

A handwritten signature in blue ink, appearing to read "Elisabeth Luther".

Elisabeth Luther
Senior Manager, Regulatory Affairs

Cc: Lou Kamermans (Baffinland)
