

SHIPBOARD OIL POLLUTION EMERGENCY PLAN
TABLE OF CONTENTS

1. GENERAL INFORMATION AND INTRODUCTION	1-1
Preamble	1-2
1.1 Introduction to Special Precautions for Arctic/Canadian and U.S. Waters	1-3
1.2 Definitions	1-4
2. NOTIFICATION PROCEDURES	2-1
2.1 Report Requirements – General	2-2
2.2 When to Report	2-3
2.3 Information Required – What to Report	2-5
2.3.1 Initial Report Format	2-6
2.3.2 Formation for Initial report	2-8
2.3.3 Sample of Initial Report	2-10
2.3.4 Format for Supplementary Report	2-13
2.4 Whom to Contact	2-16
2.4.1 Notification to be made by Shore Personnel	2-18
2.4.2 Coastal State Contacts	2-19
2.4.3 Port Contacts	2-20
2.4.4 Notification in Arctic/ Canadian and U.S. Waters	2-21
2.4.4.1 Qualified Individual	2-22
2.4.4.2 Contract Details	2-22
2.4.4.3 Responsibilities of Q.I.	2-23
2.4.4.4 Pre Arrival Notifications	2-24
2.5 Reporting Requirements – Arctic Waters	2-25
2.5.1 Deadweight Distribution Report – Arctic	2-27
2.5.2 Change Report – Arctic	2-28
2.5.3 Position Report – Arctic	2-29
2.5.4 Check List for Notifications	2-30
3. SHIPBOARD SPILL MITIGATION PROCEDURES	3-1
3. Steps to Control Discharge of Oil	3-2
3.1 On Board Pollution Prevention Team	3-3
3.2 General Responsibilities	3-4
3.2.1 Responsibilities of Master	3-4
3.2.2 Responsibilities of Chief Engineer	3-4
3.2.3 Responsibilities of Chief Officer	3-5
3.2.4 Responsibilities of Second Engineer	3-5
3.2.5 Responsibilities of Second Officer	3-5
3.2.6 Responsibilities of Third Officer	3-5
3.2.7 Responsibilities of Third Engineer	3-5
3.3 Operational Spills	3-6
3.3.1 General Procedures for all Operational Spills	3-6
3.3.2 Spill due to Pipe Leakage	3-7
3.3.3 Spill due to Internal Tank Leakage	3-7
3.3.4 Tank Overflow	3-8
3.3.5 Hull Leakage	3-9
3.3.6 Spills Caused by Equipment in Machinery Spaces	3-10
3.4 Spills Resulting from Casualties	3-11
3.4.1 Grounding or Stranding	3-12
3.4.2 Fire/ Explosion	3-13
3.4.3 Collision	3-14
3.4.4 Hull Failure	3-15
3.4.5 Containment System Failure	3-15
3.4.6 Ship Submerged/ Foundered/ Wrecked	3-16
3.4.7 Hazardous Vapor Release	3-16
3.4.8 Excessive List	3-17
3.5 Lightning/ Transfer of Bunker	3-18
3.6 Mitigating Actions	3-19
3.7 Damage Stability & Hull Stress Assessment	3-20

3.8 Salvage	3-21
3.9 Preventive Measures to Avoid Pollution	3-22
3.10 Inspection of Equipment	3-25
3.11 Shore Based Response – Canadian/U.S. Waters	3-27
4. NATIONAL AND LOCAL COORDINATION	4-1
4.1 National and Local Coordination	4-2
5. SPILL RESPONSE EQUIPMENT	5-1
5.1 Response Equipment	5-2
6. RECORD KEEPING AND SAMPLING	6-1
6.1 Record Keeping and Sampling	6-2
7. MEDIA RELATIONS	7-1
7.1 Media Relations	7-2
7.2 Media Contacts	7-3
7.3 Media Consultant	7-4
8. OIL SPILL DRILLS	8-1
8.1 Drills	8-2
8.2 Q.I. Notification Exercise	8-4
9. PLAN REVIEW	9-1
9.1 Plan Review	9-2
10. VESSEL SPECIFIC INFORMATION	10-1
List	10-2
Principal Particulars	10-3
General Arrangement Plan	10-4
Tank Capacity Tables	10-5
Capacity Plan	10-6
Fuel Piping and Pumping Diagrams	10-7
Midship Section	10-8
Trim and Stability Information	10-9
Company Emergency Procedures	10-10
