Bcc: Distro Mary River <distro-2am-mry@nwb-oen.ca>

Dear Parties,

In December 2025, the Qikiqtani Inuit Association provided the NWB and the Nunavut Impact Review Board with six Inuit Stewardship Program Reports related to the Mary River Project; and requested the Reports be posted on the NIRB and the NWB's registry. As the Reports were not required to be filed with the NWB under Type A Water Licence No: 2AM-MRY2540 which governs the Mary River Project and four of the Reports address issues outside the NWB's freshwater management jurisdiction, the NWB took some time to follow up with the Qikiqtani Inuit Association and Baffinland Iron Mines Corp. to understand expectations around how the information in the Reports is to be considered by the NWB and interested parties in the context of the Water Licence and associated monitoring reports. Baffinland has recently provided a response to the two Reports which are relevant to freshwater management. The two Inuit Stewardship Program Reports relevant to issues within the NWB's jurisdiction are now available on the NWB's registry along with Baffinland's response. These materials are being provided for information, and the Board thanks all parties for sharing the information gathered from Inuit as part of this important initiative. If you have any questions or wish to discuss these documents further, please reach out to the Qikiqtani Inuit Association or Baffinland directly.

Regards,

Robert Hunter  
Licensing Administrator
