Subject: NIRB 08MN053: May 13.2011 IRs response submission from Baffinland for NIRB's review of its Mary River Project

Dear Parties:

As indicated in the May 10, 2011 email from Nunavut Impact Review Board (NIRB or Board), on May 13, 2011 Baffinland Iron Mines Corp. (Baffinland) submitted their outstanding responses to Information Requests (IRs) related to NIRB's review of the Mary River project proposal (NIRB File No. 08MN053).

This submission includes the following information:

CD #1.1-#1.5(5CDs): Air quality modelling data which is requested by Environment Canada (EC)

CD#2 Updated Table 3.1 Water Quality-Mine Site
 Meteorological Baseline Information
 Climate Change
 Response to EC IR 2-5
 EC IR-46-1, and GN IR-17
 GN IR-6_ Lighting Response

The Board has uploaded the CD#2 to the NIRB's public registry, and can be accessed and reviewed by parties using the following link:

Please be advised, the total size of data in CD #1.1-#1.5(5CDs) is more than 3 GB, and Baffinland has submitted them directly to EC, therefore NIRB did not upload them at this time. However, if any party is interested in the information, the Board will send a DVD copy at request.

If you have any questions or require additional clarification, please contact Li Wan, Technical Advisor, at (867) 983-4606 or liwan@nirb.ca.
