

## **Air, freshwater, soils**

1. NIRB 3b - NOX thresholds and potential exceedances and whether BIM would consider moving infrastructure – BIM will respond by mid May.
2. IR#EC 11a – BIM to follow up with EC on monthly site water balances.
3. IR#EC 11b – magnitude thresholds – follow up completed.
4. DFO 5.1a – fish passage in culverts – BIM to work with DFO and get resolution by mid May.
5. AANDC # 9 – Pit Water Quality on closure. BIM to work on response for mid June - AANDC consultant (SNC) expert to provide BIM with clarity on rationale on why AANDC foresees an increase in oxidation overtime. This will guide BIMS response.
6. EC IR# 25a, b, c. – glycol collection and treatment. BIM to provide clarity and context.
7. AANDC # 5 – explosives handling best practice. BIM can provide best practice by mid May.
8. EC # 27 – Tunnel brine use, recycling and overflow. BIM to work on response for mid May.
9. EC # 28 and 29 – BIM committed to advancing AEMP and reference sites. Include QIA involvement.

## **Marine Mammals**

1. QIA # 08 – provide measure of variance on 30 years.
2. DFO # 2.2 – Thresholds including biological removal.
3. EC # 1 - wave sensor data.
4. Density in ballast water model – was it used as a parameter? BIM to follow up with QIA.
5. QIA # 06 – thresholds – BIM to provide response for May 3
6. Risk Assessment for overwintering of fuel vessel – May 15<sup>th</sup>
7. BIM to engage NRI in the future with monitoring programs related to air, water, wildlife etc. to ensure permits are in place.
8. EC 4a and b. BIM will consider these requests.
9. Identify the formation of technical working groups with QIA and other agency's to address Marine monitoring and adaptive management plans/concerns.

## **Terrestrial Environment**

1. Identify the formation of technical working group with QIA and other agency on terrestrial and monitoring and adaptive management plans/concerns.
2. Habitat Suitability Map – BIM to provide Habitat Suitability Map to GN with a numbered legend.

## **Social and Economic Environment**

1. GN # 29a, b, c and d – working group has been formed with TC and BIM will inform TC to add John Hawkins (Head of Iqaluit airport) to working group.
2. GN # 30 a, b, c – GN suggested a small working group to develop monitoring framework and to present the priorities of the framework at the Final Hearings.
3. GN # 31 c, d, e – BIM to consider if we can present our data on overnight stays in Iqaluit and if there will be an impact.

4. GN # 36 a, b and c – BIM's CFO will get in contact with Grant Hipfner and Francois Picotte to discuss and further clarify these requests prior to submission of final technical comments from GN.
5. GN # 37 a and b – BIM will provide the contact details of the HAY group so the department can follow up on pay scales.
6. GN # 39 a – the GN and BIM to have further discussions on this topic.
7. GN # 40 a and b – BIM to speak to its family assistance provider regarding provision of data.
8. GN # 42 a, b and c - working group has been formed with TC and BIM will inform TC to add Mark Noreau with justice to working group regarding security issues at port. Mark N. to provide name of RCMP rep to be on working group.
9. GN # 43, 44, 45 a and b - working group has been formed with TC and BIM will inform TC to add Mark Noreau with justice to working group regarding SAR. Mark N. to provide name of RCMP rep to be on working group.
