Re: Submission of documents committed for delivery by May 1st from Baffinlands Commitment List for the Phase 2 Technical Meetings, held in Iqaluit from April 8-10, 2019

Dear Solomon,

Baffinland is pleased to provide this notification that the following documents are being uploaded to the public registry to satisfy commitments made leading into and during the Phase 2 Technical Meetings:

| # | Document Name | Associated TC ID# |
|----|--|--------------------------------------|
| 1 | Borrow Source Investigation Factual Data Report | CIRNAC 02 |
| 2 | Geotechnical Recommendations for North Railway Report | CIRNAC 04, NRCAN 02, QIA 25 |
| 3 | Electronic filing of the ballast water certification documents | DFO 3.8.1 |
| 4 | Supplemental Information Package: Project Infrastructure Interactions with Fresh Water Streams and Ponds & North Railway Freshwater Habitat Survey, 2018 | DFO 3.10.1 - 3.10.4, 3.11.1 - 3.11.3 |
| 5 | Memo: Updated Black Carbon Emission Estimates | ECCC 3.08 |
| 6 | Memo: Updated CAC Emission Estimates | ECCC 3.09 |
| 7 | Memo: Updated Annual Comparisons | ECCC 3.10 |
| 8 | Memo: Updated NO2 Predictions | ECCC 3.11 |
| 9 | Memo: Milne Inlet Effluent Loadings | ECCC 3.17 |
| 10 | Memo: BIM Response to ECCC WRMP Questions Part 1 | ECCC 3.19 |
| 11 | Memo: Noise Modelling for Train Passes | GN 05 |
| 12 | Confirmation of data availability and influence on assessment | HC 03 |
| 13 | Memo: Conversion Factor Clarification | HC 04 |
| 14 | Draft Interim Closure and Reclamation Plan | CIRNAC 06, QIA 18, 19 |

Under separate cover to the Nunavut Water Board (NWB) an updated Application for Amendment No. 2 of Type A Water License 2AM-MRY1325 will be submitted by the end of the week. This submission is intended to satisfy the additional information requested by parties during the completeness check, including the following updated management plans:

- Emergency Response Plan
- Fresh Water Supply, Sewage and Wastewater Management Plan
- Surface Water and Aquatic Ecosystems Management Plan
- Aquatic Effects Monitoring Plan
- Waste Management Plan

- Spill Contingency Plan
- Hazardous Materials and Hazardous Waste Management Plan
- Borrow Pit and Quarry Management Plan
- Environmental Protection Plan

The updated Application for Amendment No. 2 of Type A Water License 2AM-MRY1325 as well as all the above listed management plans will also be submitted to the NIRB as some of the documentation is relevant to the impact assessment review.

In addition to the documents Baffinland is submitting to the NIRB and NWB, there were several requests to directly supply Interveners with specific information during the technical meeting. Baffinland has since supplied this information and would like to identify this for the record as these items were captured in Baffinlands Commitment List:

- Shape files from the Mine Site to Steensby Inlet were emailed to QIA on April 17, 2019
- The Freshwater Monitoring Program Fact Sheet, 2018 Aquatic Effects Monitoring Program Report, and 2018 QIA/NWB Annual Report were emailed to Frank Tester and representatives from the MHTO and Hamlet of Pond Inlet on April 30, 2019

Baffinland appreciates the continued efforts of the NIRB and Interveners to ensure an efficient and timely review process. We trust the responses provided will satisfy the requirements of the Interveners to continue their technical reviews. Baffinland reiterates its commitment to identifying and resolving issues as early as possible, and will make every effort to create opportunities for this to occur.

For any questions or clarifications please do not hesitate to contact the undersigned for further information.

Best Regards,

Lou Kamermans
Director, Sustainable Development
