Hello,

As an extension of a phone discussion held with Sean Joseph on Thursday January 22nd, and in complete response to the NWB's December 19, 2014 request for comments on the Technical Session agenda associated with 2AM-MRY1325, the Qikiqtani Inuit Association (QIA) provides the following:

- The agenda provides an opportunity for Intervening Parties to provide presentations. The QIA notes that a formal presentation by Interested Parties) may interfere with the ability to informally discuss and resolve any outstanding technical matters, which is the primary purpose of the Technical Session. As such, QIA is not submitting a formal presentation for use in the Technical Session and will be primarily referring to its November 14, 2014 technical assessment submittal to the NWB and BIMC's December 5, 2014 response.
- The agenda contains activities that span from 3pm to 5pm MST (5pm to 7pm EST) and may extend to a later time if required. Meetings extending into the evening for participants in the eastern time zone can be challenging and it is requested that NWB accommodate, if possible. A potential suggestion would be to have the meetings start early than 11am MST (1PM EST).

As requested by the NWB, the following individuals will participate in the teleconference:

- Stephen Williamson Bathory, Qikiqtani Inuit Association
- Salamonie Shoo, Qikiqtani Inuit Association
- Jamie VanGulck, ARKTIS Solutions Inc. (technical consultant to the Qikiqtani Inuit Association)

Regards, Stephen.

Hello,

We are looking for confirmation that AANDC and QIA will attend the Mary River TM-PHC Teleconference for January 28, 2015. Please confirm that presentations will be provided as well.

Thanks,
