RE: Baffinland Iron Mines Corporation Type"A" Water Licence

Dear Phyllis:

The Hamlet of Pond Inlet appreciated being invited to participate in the conference call regarding the Technical and Pre-hearing for the Baffinland Type A Water License.

As we could not fully participate on the pre hearing portion due to unforeseen circumstance in the community.

The Hamlet Council feels that an in person public hearing take place and held in Pond Inlet.

That opportunity would give all residence of the community a chance to voice their concerns. Failure to do so could be detrimental to the community and the project. This would show due consideration for and of the community. That type of venue is best when addressing this type of project and would show respect for the community and its residence.

I trust this letter is satisfactory as our reply to your request for a written submission from the Hamlet of Pond Inlet Council.

Should your require anything further, please contact myself and I will endeavor to answer any/all questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to be 'Mike Rudkin', written in a cursive, stylized manner.
