Re: Submission of Management Plans as per Type A Water Licence 2AM-MRY1325

To Phyllis,

Please find enclosed the management plan updates for the 2014 reporting year as required by Type A Water Licence 2AM-MRY 1325. Not all management plans required updates to content this year, and so Baffinland has included, in hard copy, only the plans that were revised and re-issued. The revised plans are:

1. Air Quality and Noise Abatement Management Plan
2. Fresh Water Supply, Sewage, and Wastewater Management Plan
3. Spill Contingency Plan
4. Emergency Response Plan
5. Surface Water and Aquatic Ecosystem Management Plan
6. Roads Management Plan
7. Waste Management Plan
8. Hazardous Materials and Hazardous Waste Management Plan
9. Interim Closure and Reclamation Plan

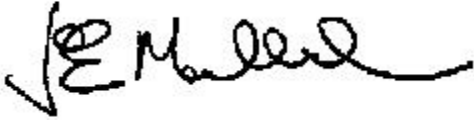

The content updates were minor in most cases, and were done to reflect the approval of the Early Revenue Phase, operating conditions at site, and any new policies and/or procedures.

The Interim Closure and Reclamation Plan has been revised in consultation with the Qikiqtani Inuit Association as per Commercial Lease QC30001 and the Annual Security Review process.

Baffinland has appended a digital version of all current management plans for the Mary River Project, as listed in Part B, Item 15 of the Type A Water Licence 2AM-MRY1325. Please note that additional plans, like the Terrestrial Environment Mitigation and Monitoring Plan (TEMMP) are required by the Nunavut Impact Review Board and Project Certificate No. 005 and as such, have been submitted to the appropriate regulators as part of the *2014 Annual Report to the Nunavut Impact Review Board*.

Should you have any questions regarding the enclosed, please contact myself or Jennifer St Paul Butler, Sustainability and Reporting Specialist.

Regards,

A handwritten signature in black ink, appearing to read 'J. Millard', with a stylized flourish at the end.

James Millard, P.Geo, M.Sc.
Environmental Manager
