Hello licensing,

Several deadlines for comments are upcoming regarding water licence 2AM-MRY1325, Baffinland's Mary River Project.

The comments on the annual report are due today and in communications with Water Board staff last week, I was informed it would be OK to submit these comments in the same time as those for the management plans. I would like to confirm that I will take advantage of the offer and submit comments for both the annual reports and management plan on July 4, 2017.

I am also asking for an extension for comments on the workplan amendment submitted by Baffinland. The due date is June 23 and I am requesting an extension until June 28, 2017.

Regards,  
Sarah
