Schedule B. General Conditions - The Annual Report referred to in Part B, Item 4 shall include:			
1	The Licensee shall file with the Board, no later than March 31st of the year following the calendar year being reported, an Annual Report on the appurtenant undertaking which shall contain the following information:	See below.	Annual Report submission date extended by the Nunavut Water Board to April 30, 2020. Baffinland submitted Annual Report on April 30, 2020.
a	Water		
i	The monthly and annual volumes, in cubic meters, of all fresh Water withdrawn for domestic and industrial purposes and for dust suppression associated with the Early Revenue Phase, from each source in, on, or flowing through Inuit-owned land in accordance with Part E, Items 3, 4 and 25 of the License;	Section 4.0 Table 4.0 Table 4.1 Table 4.2	Water Use Annual Volumes of Water Used for Project Activities on Inuit-Owned and Crown Lands by Source - 2019 Daily, Monthly and Annual Volumes of Water Used for Domestic and Industrial Purposes on Inuit-Owned and Crown Lands – 2019 Daily, Monthly and Annual Volumes of Water Used for Dust Suppression Purposes on Inuit-Owned and Crown Lands – 2019
ii	The monthly and annual volumes, in cubic meters, of all freshwater obtained for domestic and industrial purposes and for dust suppression associated with the Early Revenue Phase, from each source in, on, or flowing through Crown Lands in accordance with Part E, Items 3, 4 and 25 of the Licence;	Section 4.0 Table 4.0 Table 4.1 Table 4.2	Water Use Annual Volumes of Water Used for Project Activities on Inuit-Owned and Crown Lands by Source - 2019 Daily, Monthly and Annual Volumes of Water Used for Domestic and Industrial Purposes on Inuit-Owned and Crown Lands – 2019 Daily, Monthly and Annual Volumes of Water Used for Dust Suppression Purposes on Inuit-Owned and Crown Lands – 2019
iii	The combined monthly and annual volumes in cubic meters of all fresh Water withdrawn for domestic and industrial purposes and for dust suppression associated with the Early Revenue Phase, from sources in, on, or flowing through both Inuit-Owned Land and Crown Lands;	Section 4.0 Table 4.0 Table 4.1 Table 4.2	Water Use Annual Volumes of Water Used for Project Activities on Inuit-Owned and Crown Lands by Source - 2019 Daily, Monthly and Annual Volumes of Water Used for Domestic and Industrial Purposes on Inuit-Owned and Crown Lands – 2019 Daily, Monthly and Annual Volumes of Water Used for Dust Suppression Purposes on Inuit-Owned and Crown Lands – 2019
iv	The monthly and annual volumes of reclaimed or recycled Water used and the purposes for which it is used.	Table 4.2	Daily, Monthly and Annual Volumes of Water Used for Dust Suppression Purposes on Inuit-Owned and Crown Lands – 2019
b	Waste		
i	The monthly and annual volume in cubic meters of treated Sewage Effluent discharged from each Sewage Treatment Facility including each Polishing Waste Stabilization Pond;	Section 5.1.1 Table 5.0	Quantities of Sewage Effluent and Sludge from STPs and PWSPs Monthly and Annual Quantities - Sewage Management – 2019
ii	The monthly and annual volume in cubic meters of treated wastewater discharged from each Oily Water/Wastewater Treatment Facility;	Section 5.1.2 Table 5.1	Quantities of Effluent from Containment Areas Daily, Monthly and Annual Quantities of Discharged Stormwater – Containment Areas - 2019
iii	The monthly and annual quantities of all Effluent discharged from each Surface Water Management (SWM) Pond;	Section 5.1.3 Table 5.2	Quantities of Effluent from Surface Water Management Ponds Daily, Monthly and Annual Quantities of Discharged Stormwater - Surface Water Management Ponds - 2019

iv	The monthly and annual volumes in cubic metres of Sludge removed from each Sewage Treatment Facility and disposed of at each Landfill Facility or any approved alternative disposal facility;	Section 5.1.1 Table 5.0	Quantities of Sewage Effluent and Sludge from STPs and PWSPs Monthly and Annual Quantities - Sewage Management – 2019
v	The monthly and annual volume in cubic meters of Hazardous Waste generated and transported from the Project sites to Licensed facilities outside of Nunavut for treatment;	Section 5.2.5 Appendix E.1	Hazardous Waste Storage and 2019 Backhaul Sealift Waste Backhaul Report
vi	The monthly and annual volume in cubic meters of any Wastes backhauled to communities in Nunavut for treatment;	N/A	No wastes were backhauled to communities in Nunavut for treatment or disposal in 2019
vii	The monthly and annual volume in cubic meters of Waste deposited at each Landfill Facility;	Section 5.2.3 Table 5.4	Mine Site Landfill Facility Monthly and Annual Quantities of Waste Deposited – Landfill Facility - 2019
viii	Monthly and annual volume in cubic metres of hydrocarbon impacted soil and water deposited at each Landfarm Facility;	Section 5.2.4 Table 5.5	Milne Port Landfarm Facility Monthly and Annual Quantities of Hydrocarbon Impacted Soil, Water and Snow Deposited – Milne Port Landfarm Facility - 2019
ix	The monthly and annual volume in cubic metres of Sewage transported for treatment from the Railway camps to the Mine Site and Steensby Port Site Sewage Treatment Facilities;	N/A	No railway camps were used in 2019
x	The monthly and annual quantities of waste rock generated and used or disposed of;	Section 5.3.1 Table 5.6	Mine Site Waste Rock Facility Monthly and Annual Quantities – Deposit No. 1 Waste Rock Management - 2019
xi	Summary of quantities and analysis of seepage and runoff monitoring from the Landfill Facilities, Landfarm facilities, and any other relevant facilities including ponds embankment dam;	Section 7.0 Table 7.1	Monitoring Water Quality Results for Water Licence Monitoring Locations - 2019
xii	A summary report of solid waste disposal activities including monthly and annual quantities in cubic metres of Waste generated and location of disposal.	Section 5.2 Table 5.3	Solid and Hazardous Waste Management Locations of Temporary and Permanent Storage Areas for Wastes - 2019
xiii	The monthly and annual volume of in cubic metres of treated Effluent discharged into the marine environment from the Milne Port Ore Stockpile Sedimentation Pond.	Section 5.1.3 Table 5.2	Quantities of Effluent from Surface Water Management Ponds Daily, Monthly and Annual Quantities of Discharged Stormwater - Surface Water Management Ponds - 2019
c	Spills		
i	A list and description of all unauthorized Discharges, including volumes of spills, report line identification numbers, and summaries of follow-up action taken;	Section 6.1 Table 6.0 Table 6.1 Appendix E.8.4	Spills Summary of Reported Spills and Unauthorized Discharges by Project Area and Material – 2019 List of Reported Spills and Unauthorized Discharges – 2019 Initial and Follow-Up Spill Reports
