Hello Richard,

I would appreciate the opportunity to have a call to discuss an extension request on the intervenor comment responses. Historically we have received intervenor comment responses within our reporting season. Last year we received the intervenor comments on October 10th and were asked to respond to the comments by March 31st the following year for the majority of them.

Having received the comment response request during our busy field season and outside of our reporting season with a due date of August 22nd is extremely challenging for us to attain. It is important for Baffinland to provide diligent responses to the intervenor comments, while engaging expert advice on the subject matter.

I would like to request an extension to November 15th which will allow Baffinland to engage subject matter experts and prioritise the response during our reporting season.

I am available to have a discussion at your convenience.

Bill
