

APPENDIX C.1.3
As-Built Report
Magazine Explosives Berm

The area used for berm construction was an existing disturbed portion of the Mine site, identified as MS-201 in the 2025 Disturbed Area Analysis Report (Ensero, 2025) submitted to QIA on October 31, 2025.

An As-built survey of the completed pad is presented as Figure C.1.3.
