Hello Assol,

With the Annual Security Review around the corner, could you please advise which version of Baffinland's Interim Closure and Reclamation Plan (ICRP) for the Mary River Project is the most recently approved version? Version 5 (October 2018) was approved in March 2018 on the condition that revisions be made by May 1, 2019. Correspondence in this regard is attached for your reference.

Baffinland has submitted revisions to the approved ICRP Version 5 in May 2019 as part of the Updated Application for Amendment No. 2 of Type A Water Licence 2AM-MRY1325. It is unclear to me whether the May 2019 version of the ICRP has been approved, or if we should be working with revision 5 of the ICRP in our assessment of the security associated with the project for the upcoming year.

Thank you,

Bridget Campbell

Hello Bridget,

CIRNA may rely on the version of the ICRP as approved by the March 2019 correspondence (the one you've attached), as the version submitted in May 2019 was for the amendment application purposes only and was considered in the context of the potential Phase 2.

I would also add that Baffinland ought to submit an updated ICRP as part of the ASR process in November as the Licence requires.

Best regards,
Assol
