Good day. I have attached some supplementary information that clarifies a point that was brought up in QIA's December 3 ASR submission (re: Annual Security Review for Water Licence # 2AM-MRY1325 – Mary River Project). Specifically we are providing a backup file that clarifies the existing length of abandoned Tote Road Alignments as outlined on Page 6 of QIA's submission. The file is attached.

Whereas QIA has estimated the length and area of abandoned roads in 2015 to be 26.7 km and 266,500 m<sup>2</sup>, respectively (page 6 of their report), we have calculated a length of 13.2 km and an area of 115,500 m<sup>2</sup>. The attached dxf file provides the back-up required to verify these numbers. The file compares the alignment between the 2015 survey data and the 2009 original Tote Road As-Built Report.

Kind regards

**Jim Millard | Environmental Manager**
