Good morning Robin, Baffinland and QIA have agreed that additional review time is necessary for the 2022 ASR process. The specific dates are still being determined but we anticipate the period for QIA to complete their review will extend to the end of February. Given this extension for QIA's review, Baffinland and CIRNAC have agreed that additional time would be beneficial to continue addressing outstanding issues, so there will not be any updated submissions filed with the NWB today.

QIA and Baffinland will provide more information once the revised timeline has been confirmed.

Thanks,
