**Subject: Licence No: 2AM-MRY1325 Type “A”; Mary River Project, Baffinland Iron Mines Corporation, Process Guidance Annual Security Review Associated with 2024 Work Plan**

---

Dear Parties:

Please be reminded that the Annual Security Review associated with the 2024 Work Plan (the ASR), as required under Licence No: 2AM-MRY1325 (the Licence), issued to Baffinland Iron Mines Corporation (Baffinland or the Licensee) for the Mary River Project (the Project), has commenced with the receipt of the 2024 Work Plan. The ASR process is intended to determine the extent of any difference between the reclamation security currently posted for the Project, taking into account any recently completed progressive reclamation work, the Licensee’s 2024 Work Plan, and other relevant factors. In preparation for the ASR, the Nunavut Water Board (NWB or the Board) takes this opportunity to provide stakeholders and interested parties with an overview of the upcoming ASR process, including an anticipated timeline of activities associated with the NWB’s conduct of the ASR in the attached Table 1.

Copies of all documents received can be accessed through the NWB’s Public Registry and FTP site using the following link:

<ftp://ftp.nwb-oen.ca/registry/2%20MINING%20MILLING/2A/2AM%20-%20Mining/2AM-MRY1325%20BIMC/3%20TECH/2%20SECURITY%20%28C%29/2024>

As required by the Licence, the ASR is generally conducted in accordance with Part C and Schedule C of the Licence. The proposed timeline is slightly modified as requested by the Licensee. Although Table 1 outlines a projected timeline for the ASR, the Board may, with adequate notice, adjust the timelines and events to ensure that all process objectives are achieved. Parties wishing to provide feedback on the timelines and/or activities included in Table 1 should do so by **12:00 p.m., MST, December 11, 2023.**

This year’s ASR process will be conducted in two stages as was done for the ASR processes for

the preceding years. The first stage of the process requires stakeholders and/or interested parties to provide feedback on the following question:

*Is the existing total reclamation security amount as set by the Board in accordance with the 2023 Work Plan adequate to reflect the scope of activities and undertakings proposed by Baffinland in the proposed 2024 Work Plan?*

In addressing the above question, it is expected that stakeholders/interested parties will provide the Board with sufficient information regarding their key assumptions and inputs including any models used to generate and review the relevant reclamation estimate(s) pertaining to the Project. The Board requests that where parties differ in their estimates on the amount of financial security necessary to ensure appropriate closure, reclamation, restoration, and post-closure measures for the Undertaking, that the parties provide clear directions and basis for the specific points of divergence.

The second stage of the process involves confirmation from the Licensee, the Qikiqtani Inuit Association (QIA), and Crown-Indigenous Relations and Northern Affairs (CIRNA) regarding the amount of financial security posted by the Licensee for reclamation of the Undertaking under the Licence and the commercial lease with the QIA, and whether updates to these amounts are currently being considered or required. This information should be provided to the Board on or before January 25, 2024 so that consideration can be given to all relevant submissions in determining the total amount of financial security to be held under the Licence prior to Baffinland commencing activities under the 2024 Work Plan.

Should you have any questions regarding the above, please direct them to the NWB Licensing Department by email to [licensing@nwb-oen.ca](mailto:licensing@nwb-oen.ca), or to Nidhi Singh, Technical Advisor, by email at [nidhi.singh@nwb-oen.ca](mailto:nidhi.singh@nwb-oen.ca) or by phone at (867) 360-6338 Ext. 32.

Sincerely,

**NUNAVUT WATER BOARD**

Executive Director
