Bcc: Distro Mary River <distro-2am-mry@nwb-oen.ca>

Good afternoon,

The Nunavut Water Board acknowledges receipt March 26, 2024, of the Waste Rock Facility Quality Assurance & Quality Control Monitoring Plan. This latest version is new and integrates comments received from both QIA and CIRNAC on draft components of this plan during the 2024 Annual Security Review Process.

The Nunavut Water Board would advise parties that while the updated plan shall reflect discussion and recommendations related to the 2024 ASR Process, the review and potential approval of the plan will likely be after finalizing the 2024 ASR given the timelines. The Board would like to note that the same plan will be part of the annual report submission.

Interested parties invited to review and provide comments by the deadline of **April 29, 2024**.

Due to the file size copies of all documents received in support of this submission can be accessed through the NWB's Public Registry and FTP site using the following Link:

<ftp://ftp.nwb-oen.ca/registry/2%20MINING%20MILLING/2A/2AM%20-%20Mining/2AM-MRY1325%20BIMC/3%20TECH/2%20SECURITY%20%28C%29/2024>

The Nunavut Water board is aware that a number of web browsers are no longer supporting File Transfer Protocol (ftp). If you are having difficulty accessing our FTP site you may need to download an FTP application. We have been recommending the FileZilla Client below to access the files, which is a free and open source application. A link can be found below:
