Good morning,

Excepting the support for a 2-week extension to the previously scheduled ASR teleconference, the Qikiqtani Inuit Association does not support Baffinland's March 28th request for an extension the NWB ASR process.

QIA has already accepted two, 1-month extension requests from Baffinland to the 2024 reclamation security process.

As further extensions to the ASR process are not in the best interest of landowners, we trust that our position will be given serious consideration given the significant impact to QIA.

QIA appreciates the challenging role that the NWB has in coordinating its process timelines to meet the needs of all parties.

Regards,
