Good afternoon,

QIA and Baffinland are continuing ongoing security processes per the terms of the Commercial Lease. The security quantum referenced in your below email does not indicate a final value for incorporation into the Global Security decision issued by the NWB. QIA's submission was shared with both the NWB and CIRNAC for the sake of transparency. Can the NWB confirm when they would like to be re-engaged in the 2025 ASR process for the Mary River Project in order to issue a Security Determination?
