Good afternoon, Assol,

The QIA can confirm at this time that reclamation security has been posted for the 15 ML Arctic Diesel tank proposed for the Milne Port site of the Mary River Project.

Notwithstanding the above, the QIA seeks guidance from the Nunavut Water Board (NWB) on whether the Nunavut Impact Review Board (NIRB) has provided confirmation that the proposed fuel tank referenced above is part of the scope of activities/infrastructure already approved for the Project.

Regards,

Sean

Hello Fai, Sean,

Just wondering if QIA has any concerns with BIMC's submission referenced in my earlier email? NWB would appreciate a response before EOB on Friday (August, 24).
