**Re: Borrow Source Management Plan for new Borrow Sources (NWB Licence No. 2AM-MRY1325)**

Dear Phyllis,

In accordance with Part D, Item 7 of the recently issued NWB Type A Licence No. 2AM-MRY1325, please find attached the Borrow Source Management Plan (H349000-1000-07-126-0015) for review. The Borrow Source Management Plan describes the philosophy of borrow source operations for the Mary River Project and provides detail on the planned drainage for borrow source 'P1'. The Borrow Source Management Plan also takes into account the requirements of the Project Certificate No. 005 (Item #30), Nunavut Water Board Type 'A' Licence, as well as Commercial Lease, No. Q13C301. This submission was developed as a supplement to the Borrow Pit and Quarry Management Plan (H349000-1000-07-126-0011) previously submitted.

Please do not hesitate to contact the undersigned should you have any questions, comments, or require any clarification.

Sincerely,

A handwritten signature in black ink, appearing to read "O. Curran".
