Hi Wayne,

With respect to the Nunavut Water Board's (NWB's) June 23, 2017 information request, the NWB believes that Baffinland Iron Mines Corporation (BIMC) proposed modification request for the diversion system at the currently constructed accommodation camp pad is inextricably linked to that of the proposed accommodation camp, which BIMC intends to address under a separate modification request. Consequently, both modification requests should be accordingly combined for the NWB's consideration.

BIMC's combining the modification requests for the proposed accommodation camp with that of the diversion system will enable the NWB to provide clarity as well as comprehensive and consistent directions regarding these activities, in a timely manner.

It should be noted that BIMC's pending response(s) to the NWB's information request will assist in achieving this objective.

Regards,

Ida Porter- $\Delta C > \Delta C$
